FY 2027 Budget Discussion

Milikowsky reported that the Select Board voted to present an override question on the April 11 ballot for \$500,000. It was suggested the finance committee look at reasonable cuts to line items along with the override rather than just using free cash. Much discussion ensued on how to best approach the public information sessions on the budget. It was generally decided that we need to give a very clear narrative on what the budget would look like with an override or without an override. It was felt that the Department Heads would be the best people to describe these narratives.

The suggestion was made that at our next meeting we go through the budget line by line to see if there are any more reasonable cuts we could suggest to the budget. Perhaps the Department Heads from Police, Fire and Public Works could be at this meeting to help us put together a clear narrative before the information sessions?

Resident Concern

Kasal was concerned that information on the informational meetings or really any town meetings was not adequately made available to the public. Several suggestions were made to help with the issue.
