

**Westhampton Board of Health meeting
August 10, 2026**

Katch Bacheller, Chair
Heather Livingston
Brian Chapdelaine, Health Agent (by phone)
Sydney Lewandowski, Health Inspector
Marylou Burgess (guest)
Steve Holt (guest)
Patrick Livingston (guest)
Brad Morse (guest)

Meeting was called to order at 5:41 p.m.

Agenda item 1: June and July 2026 BOH minutes

HL motion to approve minutes from June and July 2026 BoH meetings; KB seconded; none opposed; motion carried

Agenda item 2: 225 NW Road

Lily and BC went out a few weeks ago; owner's husband met them at bottom of driveway but didn't allow entry. Peaceful interaction; BC feels like trust was built. Lily and BC going back out on August 19. He reached out to Hilltowns CDC re: house rehab loan program..

BC: Owner wants to make sure we have safe entry to the house; he intends to ensure there are steps leading up when they arrive on the 19th. Having Lily there made a difference in making the personal connection, plus focus on safety.

KB and HL both approve of continuing with this approach.

Agenda item 3: 61 Chesterfield Road septic Title 5

Certified mail wasn't delivered. SL needs to resend certified mail.

Agenda item 4: Septic and Well Regulations draft

Donna and KB will meet with SL on Thursday to review and make recommendations.

Agenda item 5: Body Art Regulations

HL concerned that draft regulations allow autoclave to be located anywhere; suggested requiring them in a clean, securable location.

BC noted that most autoclaves are used for piercings rather than tattoos but indicated he would review and add basic safety requirement re: location. Main goal of regulations is to align with other towns.

Agenda item 6: Outlook Restaurant

Brad Morse requested BC send meeting/inspection details on 7/21. Indicated he would attend the BoH meeting as requested. Brad arrived at 5:55 p.m.

BC reported that several items identified during the June 2, 2026, inspection had not been completed or had not been addressed within the required timeframes. BM stated that all items had since been addressed and discussed the corrective actions taken, including remediation of the black mold and plans to install fiberglass wallboard.

The Board discussed the anti-choking training requirement. BC explained that establishments with 25 or more seats are required to have appropriately trained personnel on site and that a LifeVac device does not satisfy the state requirement. Possible local training resources were discussed.

BC advised that a reinspection would be necessary and that additional reinspections after the first reinspection would incur a \$100 fee per visit. BM stated that BC could reinspect at any time and commented that he believed none of the cited violations constituted an immediate public health issue.

New Business

Fall Festival

1. KB indicated the BoH needs to start planning the fall festival and will be adding to the September agenda.
2. BC shared that Lily's job performance is next month.
3. SL shared that septic designs are forthcoming for 71 Montague/55 Southampton Rd. No need to be on agenda—not contentious
4. SL approved order of conditions for 10 West Shore Drive; will report next month
5. KB reported the Asian Needle Ant has been found in Waltham. Its sting is reactive 45 minutes and feels like a murder hornet or fire ant.
6. Next meeting scheduled for September 14, 2026 at 5:45 p.m.
7. Meeting was adjourned at 6:24 p.m.
