5. New Business: Richard Olivo, 84 Easthampton Rd., re: repair to stone embankment and re-grade of small lawn area adjacent to stream: schedule SITE VISIT? Next steps?  
RDA required; How best to restore embankment without disturbing stream?

Cons Com suggests getting a few estimates to reinforce stone wall without major industrial production; lawn re-grade constitutes routine maintenance; however, stone work will require RDA (Cons Com will then issue OOC); work done by hand, no heavy equipment; Olivo will get back to Cons Com when he's ready for RDA hearing;  
COC on record? Property owner will check into it;

Mike Matrishon: large trailer load of chicken waste spread by the road (around 360 Main Rd); toxic fumes; not a commercial farm (though covered under 61 A and/or Right to Farm), private resident; property owner contacted BOH (technically not under Cons Com jurisdiction); priority watershed area protected land; waste management must adhere to public health and environmental guidelines in order to protect resources from pollution; dumped on town land  
Who's responsible for removal?

Storm drain? Where does the run-off go? How to regulate?; this situation has happened in the past; Mike will get back to Cons Com after meeting with BOH

Marilyn Witherell: 5 trees need to be removed; dead/dying; adjacent to campground;  
Cons Com approves, routine maintenance

Cons Com reviews NOI paperwork for Reservoir Rd. culvert/slip line repairs;
