5. New Business: Review of Pollination Committee proposed resolution: The committed reviewed the proposed Resolution Declaring Westhampton to be a Pollinator-Friendly Community. After a brief discussion, the commission voted to support the motion in its submitted form. The approval was by acclimation. Arthur Clapp will prepare a letter offering the Commission's support to the Selectboard.

Signage for Right to Farm and Farm Machinery in Road: Arthur Clapp requested that the Commission explore submitting a request to the Selectboard that signage promoting that Westhampton has adopted a Right to Farm Bylaw be posted at each highway entrance to the Town. He also asked that the Commission consider supporting signage in select areas of the Town that provides warnings that Farm Machinery may be using the roadway.

Bill Jablonski, Highway Superintendent, was in attendance and he presented information regarding the cost(s) that would be associated with such signage. He stated that the Right to Farm signage could probably be posted on signposts already at Town highway entrances that notify that Westhampton is a Heart-Safe Community, thereby saving the expense of purchasing posts. The Machinery warning signs would require post acquisition. The Commission expressed that the signage, if approved by the Selectboard, could be installed on a phased basis thereby accommodating Highway Department budgetary and labor availability limits.

Bill indicated that the signage would have the following Cost:

Right to Farm Signage (custom order)	\$45.00 ea.
Farm Machinery Signage, 24' x 24'	\$38.54 ea,

The Commission voted to have the Chair draft a letter proposing the signage to be submitted to the Selectboard.
